

Legacy

Legacy, the continuing tradition of a glove that made history. In 1984 under the impetus of the great Formula 1 champions of the time, especially Ayrton Senna, the Stand 21 "Outseam" gloves were born. This revolution has totally transformed the drivers' feel at the wheel while providing the needed safety to exercise their passion serenely. This product has evolved over time to offer greater performance to its users while meeting increasingly demanding standards. The Legacy glove by Stand 21 proudly carries the genes of its predecessors while improving grip and safety in the sober style dear to the brand, while allowing maximum customization.

White Legacy glove

Technical data
