

1988 first title limited edition suit

1988 first title limited edition suit

Great news for all Ayrton Senna fans: Stand 21, his historic tailor, has released an exact replica of the McLaren suit worn by the great champion in the year of his first title in the sport, with the endorsement of Senna Brasil. Produced in the brand's historic factory, where its original suits were made under the watchful eye of Yves Morizot, the company's founding president, who personally oversaw the development of the Brazilian champion's equipment, this limited edition of just 30 is made to the exacting standards of the time, and comes framed and numbered.

A portion of the sale price of each suit will be donated to the Ayrton Senna Institute.
